### KIM AND KANYE'S FLOWER WALL

The floral wall backdrop has become the ultimate big day feature! Recreate the look on a modest budget with tips from [stephaniesaundersflowers.co.uk](http://stephaniesaundersflowers.co.uk).

#### FAKE IT!

If it's a full on floral wall you want, there are companies out there who have them to hire, made of silk or faux flowers. Still impressive at a fraction of the cost!

#### GREEN IT UP!

Foliage walls are fast becoming a popular alternative, and should you wish to inject a pop of colour, add in some Hydrangea florets and larger headed flowers. You could even have your initials written in flowers on the wall to make it that bit more personal.

#### DOWNSIZE!

Choose a small floral wall to stand behind your cake table. It will still look stunning and make a great photo backdrop without going too over the top.
